

Jobs

The Austrian company SETEC Engineering offers a comprehensive range of services for drinking water supply in the interests of reducing water loss, creating digital utility maps for supply and disposal systems, hydraulic network analysis, feasibility studies, planning and monitoring of rehabilitation or optimization measures and training of waterworks personnel.

With a permanent staff of 30 suitably experienced engineers and technicians, the engineering company SETEC is strongly established in the water supply sector in Austria, Germany and Italy as well as in numerous transition and emerging countries.

We are constantly looking for motivated, talented and innovative employees to strengthen our team. If you believe

- you are the right person for the position described below
- your skills would be of great service to us
- you are prepared to work in a dynamic, specialized field of engineering

then don't hesitate to send us your application.

Send your application and CV by post or by e-mail to:
